Grant Opportunity Guidelines

Medical Research Future Fund – Medical Research Commercialisation Initiative

2020 Early Stage Translation and Commercialisation Support Grant Opportunity Guidelines

Opening date:	4 March 2021
Closing date and time:	5:00pm AEDT on 1 April 2021
Commonwealth policy entity:	Australian Government Department of Health
Administering entity:	Department of Industry, Science, Energy and Resources
Enquiries:	If you have any questions, contact us on 13 28 46 or ESTAC@industry.gov.au
Date guidelines released:	15 December 2020
Type of grant opportunity:	Open competitive

Stream 1

Preclinical **medical research** or **medical innovation** projects with commercial potential (CUREator)

Stream 2

Early clinical development of **novel drugs**, or novel uses for **existing drugs**, with commercial potential (CUREator)

Stream 3

Early clinical development of **medical devices** with commercial potential (CTCM)

Stream 4

Early-stage development of **digital health technologies** with commercial potential (ANDHealth+)

CTCM: \$19.75M MRFF Program

4-year initiative that will:

- Identify **medical devices** with **commercial potential**
- Support SMEs through **early clinical trials**

In partnership with:

About the CTCM Program

Funding Round 1

CLOSED

Funding Round 2

OPENS 9 SEPTEMBER

24 months

FUNDING PERIOD PER ROUND

Successful projects will receive

Between **\$250,000** and
\$1.5 million per project

CASH CO-CONTRIBUTION

\$250K-\$500K → 1:4

\$500K-\$1M → 1:2

\$1M+ → 1:1

Commercialisation and
Development support

Educational support

Access to infrastructure

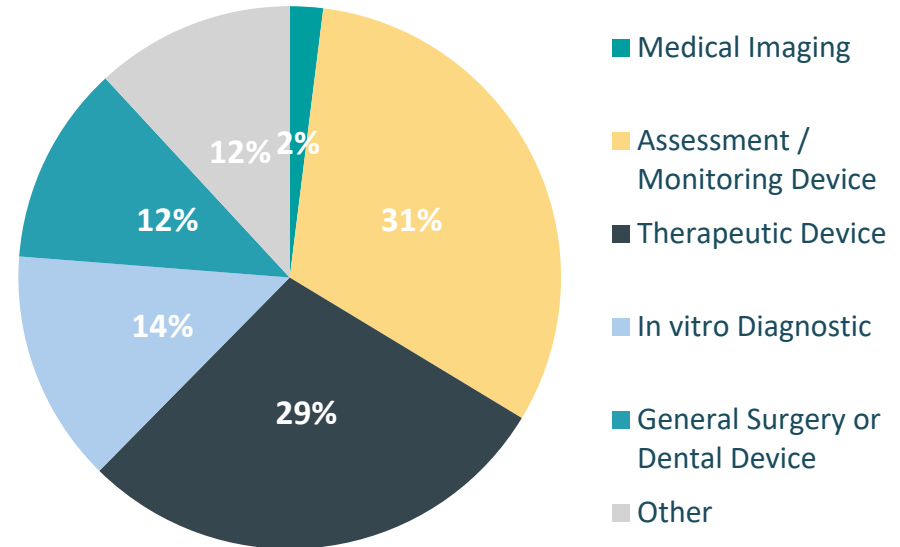

CTCM Round 1 Statistics

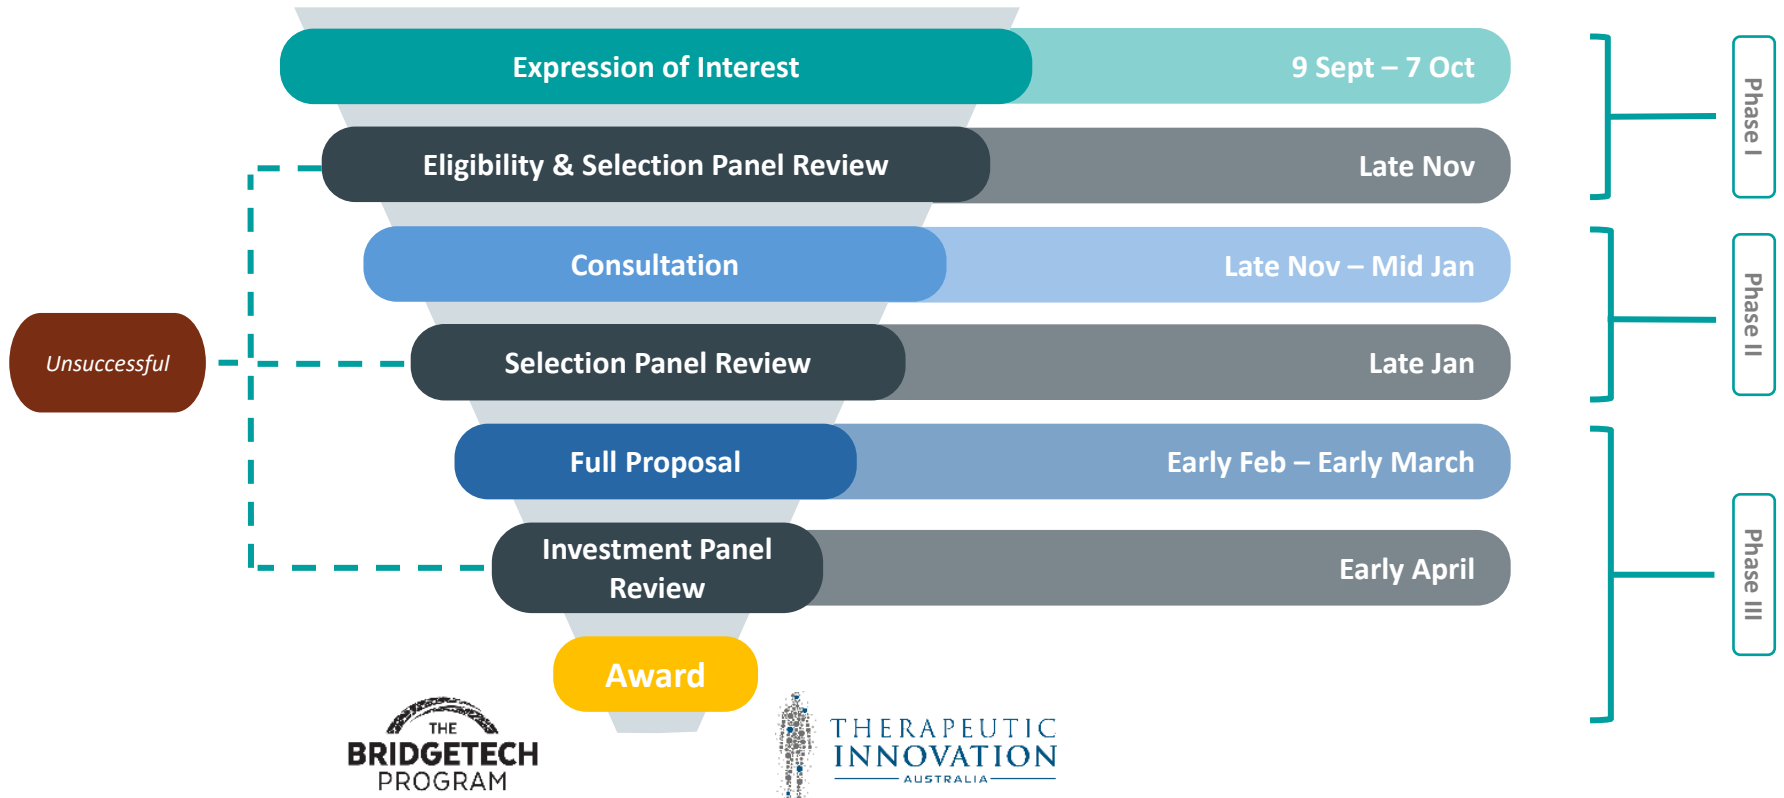

Statewide distribution of EOIs

Category of medical device

Application Process

Eligibility

Requirements of the lead applicant

- 1 Registered Australian Business with an **ABN**
- 2 Less than **200 employees**
- 3 Must be incorporated in **Australia**

Project must involve development of a **medical device**

Technology Readiness Level : between **TRL 4** to **TRL 6**

Capacity to match the **co-contribution requirement**

Evidence of **technical or commercial feasibility**

Legal right to access and use **IP**

Selection Criteria (20% each)

Challenge & Solution

- Address an unmet need
- Competitive advantage
- Value proposition
- Commitment to local manufacturing in Australia

Technical Merit

- Innovative design features
- Scalability & safety
- Feedback from stakeholders & clinicians

Project Plan

- Clear deliverables & outcomes
- Key risks are identified
- Feedback taken into account

Translation & Commercialisation

- IP protection
- Feasible business model
- Attractive to investors

Team & Capabilities

- Experience & proven track record
- Diverse team of expertise
- Access to infrastructure

A strong CTCM project should help...

Improve health and wellbeing of Australians

Advance economic and workforce development

Commitment to Australian manufacturing

Accelerate commercialisation of medical device technology in Australia

Stimulate collaboration between research, industry and technology sectors

Important dates

EOIs OPEN

Friday 9 September

4 weeks

EOIs CLOSE

Friday 7 October

16:00 AEDT

Tips when using SmartyGrants

- 1 Observe word counts
- 2 Always save your progress
- 3 Do not have multiple users logged in
